Jenny,
The 49 M yacht, M.Y. Asteria, recently completed two weeks of cruising in Indonesia. Before and during this process we were supported by Andy Shorten and his wife, Kerry, of The Lighthouse Consultancy.

Our decision to travel to Indonesia was made on short notice and Andy and his team arranged visas, ship clearances, guests' logistics and transportation, and the dozens of other administrative tasks inherent in visiting a country with complex and myriad rules and regulations.

Andy and his team are efficient, personable, and very responsive. E-mails and phone calls were responded to within minutes day and night. Our trip from Bali to Labuan Bajo, with departure clearance at Kupang, Indonesia was orchestrated flawlessly.

I intend to use his services during our next visit to Indonesia and will recommend him highly to any yacht Captain planning to visit that country.

Sincerely,

Don Feil
Master, M.Y. Asteria
