To Whom It May Concern:

As a Sport fishing vessel most well practiced in completing day to week long trips from well-established Marinas, an extended cruise across Indonesia during 2015 was for us, a significant step into the unknown. It posed many logistical difficulties and concerns from the outset.

We needn't have worried, from our arrival in Bali and right through to our departure from Sorong 'The Lighthouse Consultancy' was always on hand and made our time in the region as easy as it could have possibly been. From Immigration, Port Clearance, Bunkering, Finance, Invoicing, Permits, Provisions (which were always of excellent quality, packed appropriately and delivered to even the remotest areas at short notice without trouble) and even trivial requests. All were handled in timely manner and executed in organised, detail oriented and personal fashion not often seen with many other agencies, even those operating in far more developed parts of the world.

Lighthouse shore personnel were on hand to assist at all of our supply and fuelling stops and always helpful with last minute requests and unplanned errands. I particularly liked Lighthouse honest 'tell it like it is' approach and flexibility when it came to handling logistics and thanks to Lighthouse we always knew what was going on and what to expect at each stop.

I would highly recommend The Lighthouse Consultancy as an agency for any vessel planning to visit Indonesia and would gladly comment further on our experience with the Lighthouse Consultancy during our time there.

If you have any further questions please feel free to contact me at the contact details below.

Best Regards
