

02 July 2019

From: Captain - ANDROMEDA

Reference – The Lighthouse Consultancy

To Whom it may concern;

Motor Yacht ANDROMEDA is a World and remote area cruising yacht. The pace of the itinerary places an enormous challenge on all those that are approached to support the operation.

Amongst many excellent support companies worldwide Andy and the support team at *The Lighthouse Consultancy* stand out for competence and commitment to the guest experience.

In 2019 Lighthouse assisted ANDROMEDA with complicated research for a broad-ranging Indonesian itinerary. Requests included; itinerary development, physical inspection of multiple destinations, arranging all logistics in support of +100m yacht and most challenging seeking flight permits for the yacht's own helicopter.

The Lighthouse Consultancy delivered on all points and did so with consistent good grace and good humour. It was a pleasure to work alongside the team in Bali and the Captains are only too willing to amplify further using contact details below.

Yours sincerely,

Capt. Brendan O'Shannassy
